THE STATE MUSEUM WINS MAJOR TOURISM AWARD

The South Carolina State Museum was awarded the prestigious Governor's Cup Award, South Carolina's top award for travel and tourism. The award ceremony was held on Wednesday, February 17, at the annual South Carolina Governor's Conference on Tourism and Travel in Charleston, South Carolina. The conference is an annual gathering of industry leaders to discuss emerging trends and marketing strategies that help improve the business of tourism. Award are given to recognize outstanding achievements in tourism development, marketing, events, business practice and study.

"The State Museum is proud to be awarded for its innovative marketing and increased economic impact on South Carolina." said, Willie Calloway, executive director of the State Museum. "The "Windows to new Worlds" project has now been awarded eight awards.

“The State Museum is proud to be awarded for its innovative marketing and increased economic impact on South Carolina.”

NOTES FROM OUR DIRECTOR, WILLIAM CALLOWAY

ARE WE SO DIFFERENT?

Not everything that is faced can be changed, but nothing can be changed until it is faced.

—James Baldwin, author

This summer the South Carolina State Museum will be presenting the award winning exhibit —“RACE: Are We So Different?” In light of the heartbreaking incidences in our state the past year, we believe presenting this exhibit aligns with our core mission of connecting communities by creating conversation of a difficult subject that still in many ways divides us. This exhibit is a scientific look at the social construct of race and asks the very simple question – **“Are we so different?”**

The exhibit seeks to provide a grasp of the scientific understanding of human variation through its interactive and engaging displays. The exhibit promotes “discovery, discussion and reflection” as it presents the history of race and how the ideas of race have changed over time. It looks at the impact of race on our lives and in our communities.

The exhibit addresses the disparity race has caused through misconceptions and misinterpretation of well-meaning intent. The exhibit addresses many cultures and will stimulate dialogue between the many diverse segments represented in the exhibit and in our state including African-American, Asian-American and Native American among others.

The exhibit will tackle some tough divisive topics that our state and our country have experienced over the years including –

- Housing, Land and Wealth
- Health and Medicine
- Youth, Education and Schools

The exhibit does a wonderful job of providing many thoughtful and differing perspectives of the subject. We all view our personal experiences through the filtered lenses of our own culture and upbringing. This exhibit seeks to remove those filters and provide us the opportunity to see and perhaps understand those differing points of view.

The State Museum will be forming an advisory planning board from the community that will be inclusive of many cultures. The advisory board will aid the staff of the state

museum in developing programs and marketing that will help to maximize the potential positive impact of the exhibit. We will be delivering programs such as –

- Collaboration with community organizations by hosting their established programs
- Encouraging conversation, awareness, and problem solving with groups in facilitator-led talking circles on site and in the community
- Meeting the communities needs with a health fair family event in partnership with health organizations.
- Creating vibrant social interactions with a reading club led by community and academic leaders in a welcoming environment with accessible hours for adults

According to a recent Institute of Museum and Library Services report, museums and libraries rank higher in trustworthiness than all other information sources, including government, commercial and private websites. This report highlighted the vital role of museums in supporting formal education and providing informal learning opportunities to students and citizens of all ages. Indeed the purpose of all museums is educating the public. Museums have earned a place of trust in the community.

The State Museum delivers tangible cultural, educational and civic value, and we are committed to service, engagement, and empowerment of our visitors. We strive to provide community engagement around a compelling topic and create lasting connections through meaningful experiences that enrich and strengthen all of our communities.

I am hopeful that his exhibit will allow all of our visitors to explore the topic of race in an environment that is respectful, open and engaging. The events of the past year in South Carolina have made us all pause and ask ourselves deeper questions. I am hopeful that by presenting this exhibit, the State Museum will help to answer those questions and perhaps even in our own small way, provide opportunities for healing and understanding across our state.

This photo from the *RACE: Are We So Different?* exhibit features college students demonstrating how racial categories have changed throughout American history. Each student is wearing a t-shirt imprinted with racial categories they would have been assigned in three different censuses. All Photos courtesy of American Anthropological Association and Science Museum of Minnesota

OPENING JUNE 4

RACE

Are We So Different?

New blockbuster exhibit explores a cultural and scientific look at race throughout history and the reasons we should celebrate our differences.

RACE: Are We So Different? was developed by the American Anthropological Association in collaboration with the Science Museum of Minnesota and will encourage museum guests to explore the science, history and everyday impact of race. The *RACE: Are We So Different?* exhibition is intended to inform and shape the local, regional and national dialogue about race.

The exhibition will address the topics of race from three different perspectives, Science, History and everyday experience, all interwoven to tell a dynamic story with a deep social impact.

SCIENCE

Visitors will discover that human beings are more alike than any other living species, and no one gene or set of genes can support the idea of race.

This powerful exhibit will help visitors of all ages examine the biology, history and life experience of race in the United States. It's goal is to help individuals better understand the origins and manifestations of race and racism in everyday

HISTORY

Throughout American history, economic interests, popular culture, science, politics, and the struggle for power have played a role in shaping our understanding of race.

EVERYDAY EXPERIENCE

Race is real socially and culturally. This section of the exhibit, visitors will explore the personal experiences of race in our schools, health care systems, neighborhoods, sports and entertainment industries and more.

life by investigating race and human variation through the framework of science. This exhibition is designed to make race an approachable discussion that promotes discovery and reflection.

RACE: Are We So Different? will open June 4 as the State Museum's new blockbuster exhibit. For more information visit scmuseum.org.

Videos throughout the exhibit present personal stories and challenge visitors to consider new perspectives on race.

On a large map of the world, visitors trace their ancestors' journeys and discover that every human has a common origin.

An interactive game about the traits people share yields surprising results that challenge visitors to reconsider the ways in which they categorize people.

Stacks of money serve as powerful emblems of the economic inequity found in the United States. Throughout *RACE: Are We So Different?*, components like this draw visitors into conversations that connect their personal experiences with ideas encountered in the exhibition.

“(Racism) is not about the way you look, it is about how people assign meaning to how you look.”

—Robin D.G. Kelly, historian

THERE'S AN APP4THAT!

It's not hard for some to remember what we did years ago when we didn't have the convenience of cell phones to save us from things like walking for hours after getting a flat tire. Today, with just a tap on your screen help will arrive in minutes, and it can all be documented live. This is just one of the luxuries offered to us by mobile phones documented in a brand new interactive exhibition at the state museum called *APP 4 THAT*.

“

In less than 10 years, smart phones have completely changed our lives.

”

TIME IS RUNNING OUT!

JULIUS CAESAR: Roman Military Might and Machines closes May 22.

**SEE IT
FREE!**

You still have time to catch the State Museum's blockbuster exhibit, **JULIUS CAESAR: Roman Military Might and Machines** before it closes. There is an additional charge to see the exhibition, but you can see it **FREE** with general admission by heading over to your nearest Little Caesar's Pizza to get your coupon.

From the triumphant victory of Julius Caesar over the Gauls at the Siege of Alesia in 52 B.C. to the transformation of Rome from a republic into the mighty Roman Empire, this international traveling exhibition brings to life one of the most technologically significant times in the history of mankind.

This interactive exhibition provides a fascinating look at an era of massive construction and large-scale technical innovation. The exhibition features reproductions, replicas, models of ancient technology and designs dating from the height of the Roman Empire.

“

Part of the fun of this exhibit is that people will be able to discuss the positives and negatives of technology and how their lives have been affected.

”

“This exhibit will take a look at how apps have changed the way we live in many ways,” said Tom Falvey, director of education at the State Museum. “We’ll explore the history and evolution of how many objects that were once common place have now been replaced by apps.”

The exhibition will feature five areas with objects that are no longer commonly used like a classroom, living room, office. It will even showcase how the music and film industry evolved with the use of technology. Smartboards have replaced chalkboards and overhead projectors in classrooms. Netflix and DVR have changed the way we watch television. Typewriters are no longer, thanks to desktop computers.

“In less than 10 years, smart phones have completely changed our lives,” said Falvey. “Part of the fun of this exhibit is that people will be able to discuss the positives and negatives of technology and how their lives have been affected.”

Over 100 years of sound and film will be on display as the evolution of sound and film from the 1880's to present day will take us from phonographs. Don't miss this visually stunning exhibition on the vast progression of technology. **APP 4 THAT** opens May 22 and is free with membership or general admission.

FROM EARTH TO THE UNIVERSE

Starting March 19, guests can take a visually breathtaking voyage through time and space in From Earth to the Universe, a new show debuting in the BlueCross BlueShield of South Carolina Planetarium. This 30 minute, kid friendly show explores deep space, travels to the birthplaces and burial grounds of stars, and goes beyond the Milky Way to unexplored galaxies.

"The first sound you usually hear when the show begins is the collective gasp of guests as the Milky Way rises over the horizon," said Liz Klimek, planetarium manager. "Planets, stars, star clusters, nebulae, and galaxies...you pretty much get to see the entire Universe in a half hour!"

Our efforts have been richly rewarded with sights more magnificent than we could ever have imagined. Take a visually breathtaking journey through our solar system, interstellar space, and beyond as we travel from Earth to and through the Universe. For tickets and a list of showtimes for this new show and all other planetarium shows visit scmuseum.org.

WORLDS!

SUMMER CAMPS

June 6 - July 1 and
July 11 - August 12, 2016

AGES 6-8

CREATIVE ENGINEERING JUNE 6 - 10 OR JULY 18-22

Campers will test the laws of physics as they create roller coasters, analyze the engineering design of vehicles, and explore Virtual Reality.

SHOOT FOR THE STARS JUNE 13-17 OR JULY 25-29

Campers will go on a one-of-a-kind mission to another star system and work in teams to design space suits and spacecraft.

DINO-MITE! JUNE 20-24 OR AUGUST 1-5

Campers will learn about popular dinosaurs and what they were like. We'll even get hands-on with the museum's fossils collection!

LEONARDO'S LABORATORY

JUNE 27-JULY 1 OR AUGUST 8-12

Campers will be inspired by Leonardo DaVinci and engineer their own aerial machines and drawing robots while learning about STEAM designs.

ENGINEERING ART JULY 11 - 15

Campers will create their own masterpieces using unconventional techniques and uncommon materials. We'll explore the world of STEAM through chemical and physical reactions, physics, and modern technology while creating art.

AGES 9-11

ASTRO ADVENTURES JUNE 6-10 OR JULY 18-22

Campers will build and hold a comet, create a 3D model of the constellations, and pilot family and friends to and through the stars in our digital dome planetarium!

WHAT'S NEW, NEWTON?

JUNE 13-17 OR JULY 25-29

Campers will explore a world of physics and forces when we learn all about Newton's three laws of motion and how they affect the world around us.

INNOVATE AND CREATE JUNE 20-24 OR AUGUST 1-5

Campers will use new technology to create Virtual Reality experiences of the museum, engineer their own catapults, and tackle physics challenges with mathematical mobiles.

INSPECT-A-GADGET JUNE 27-JULY 1 OR AUGUST 8-12

Campers will uncover the inner workings of technology and gadgets and create their own science projects through their newfound knowledge.

TREBLE IS MY FORTE JULY 11 - 15

Campers will use an oscilloscope to examine different shapes of soundwaves and see what it takes to produce organized noise.

AGES 12-14

ENGINEERING DESIGN 101 JUNE 13-17

Campers will test parachutes and shock absorption with four-story egg drops, design mechanical hands, develop pneumatic machines, and see how far we can make a Mentos rocket car go!

POTENTIALLY KINETIC JUNE 27 - JULY 1ST, 2016

Campers will conduct their own scientific investigations to determine how various forces play a "roll" in motion. Some of the forces we will be exploring are friction, gravity, and pushing and pulling.

DISCOVER THE COSMOS JULY 11-15

Campers will learn how to start up and control the museum's historic Alvan Clark telescope, take cool astronomy images with the observatory's camera, and pilot to and through the stars in the planetarium.

SEEKING SOLUTIONS JULY 25-29

Campers will get up close and personal with molecules while learning how to test pH using cabbage juice, experimenting with chemical reactions by creating a safe 20 foot explosion, and designing density columns that demonstrate the properties of mass and matter.

SPACE IS LIMITED. REGISTER TODAY!

COST: Members \$160; Public \$200 per camper per week

EXTENDED DAY: Members \$45; Public \$60 per camper per week

**FOR MORE INFORMATION OR TO REGISTER,
VISIT SCMUSEUM.ORG OR CALL 803.898.4999**

CALENDAR OF EVENTS

KINDIE GRITS AT YOUR STATE MUSEUM

Saturday, April 16 • 10 a.m. - 2 p.m.

Calling all kids and families! Kindie Grits is a FREE Indie Grits event presented by the S.C. Governor's School of Arts and Humanities that welcomes kids of all ages. Come join us for the making of a monster movie! We will be utilizing animation and live-action techniques, markers, cardboard, glitter, and other crafty techniques to create a short film by the end of the workshop. The workshop will be led by Katly Hong, youth educator extraordinaire, and a few Indie Grits filmmaker alums who are sure to deliver a magical and monstertastic experience.

2016 is a special year for Kindie Grits as we are allowing Grits kids attending the workshop to skip general admission and pay only \$8 for BOTH a planetarium show of your choosing AND a 4D movie! Wow, what a deal! Also right next door across Gervais Street, Indie Grits is hosting an all day River Concert that is family friendly from 12-9 p.m.!

BLUEGRASS JAM NIGHT

Tuesday, April 26, May 31, June 28 • 6 - 8 p.m.

Everyone is invited to bring their acoustic instruments and jam with members of the South Carolina Bluegrass and Traditional Music Association or sit back and enjoy the music.

CINCO DE MAYO DURING FIRST CITIZENS FIRST SUNDAY

May 1 • 12 - 5 p.m.

The state museum is celebrating Hispanic heritage with family fun activities such as an unbreakable piñata, crafts, games dance, music, food and more. Admission to the event is included with membership or general admission.

TRANSIT OF MERCURY VIEWING IN THE BOEING OBSERVATORY

May 9 • Museum opens early at 8:30 a.m.

On May 9, the planet Mercury will appear to cross the face of the Sun. The State Museum will offer guests the chance to SAFELY observe the transit from the Boeing Observatory. The transit will be visible for several hours and conclude at 2:42 p.m. Viewing is included with museum membership or general admission. **PLEASE NOTE:** viewing is dependent on clear skies.

Photo courtesy of National Geographic

OVERNIGHT@THE STATE MUSEUM

May 27 • 5:30 p.m. - 10:30 a.m.

Join us for a night of astronomy adventures. See ad on right for details.

STORYFEST

Saturday, June 4 • 9 a.m. - 4 p.m.

Storyfest kickoff the South Carolina Public Library's annual summer reading program. This is a free family event for adults and children. Hear from award-winning children's authors and storytellers. Face painters and other entertainers will entertain guests throughout the day.

SUMMER CAMPS

June - August • 9 a.m. - 3 p.m.

Kids will have hands-on fun while they learn about a variety of subjects from dinosaurs and engineering to astronomy.

Book your camp Today! See page 9 for details.

NEW! FRIDAY NIGHT LASER LIGHTS

June 24 (July 22 & August 26)

This summer, on the fourth Friday of the month, you can see dazzling full-color and totally immersive full-dome laser shows set to some of your favorite music. From classic rock like Pink Floyd to Phish to EDM and beyond. Three different shows per night at 8, 9 and 10 p.m. \$8 public/\$6 members

EVENTS ARE INCLUDED WITH YOUR MUSEUM MEMBERSHIP OR GENERAL ADMISSION UNLESS OTHERWISE NOTED. DATES AND TIMES ARE SUBJECT TO CHANGE.

PLEASE VISIT SCMUSEUM.ORG FOR A FULL SCHEDULE.

CURRENT EXHIBITS

HOLOCAUST REMEMBERED

Closes Sunday, April 17, 2016

This exhibit honors the memories of survivors and victims of the Holocaust through personal stories of South Carolina survivors and liberators.

JULIUS CAESAR: MILITARY MIGHT AND MACHINES

Closes May 22 • Don't miss it.

Find out how you can see it for free on page 7.

ART: A COLLECTION OF COLLECTIONS

Closes March 5, 2017

Discover South Carolina artists through a collection of pieces dating back to the 1950s. Closes March 5, 2017

TIME AND PLACE:

THE ARTWORK OF JAMES FOWLER COOPER

Closes July 4

See the Lowcountry through the eyes of South Carolina printmaker James Fowler Cooper.

THE CIVIL WAR ON THE HOME FRONT

Now open in our Civil War Gallery.

Experience what it was like behind the battle lines of the Civil War through stories of those directly affected by Sherman's wrath.

UPCOMING EXHIBITS

APP 4 THAT

Opens May 21

Discover how years of innovative technologies like the iPhone have replaced the items we once couldn't live without. From offices, to homes, automobiles and movies! App4That. See details on page 5.

RACE: ARE WE SO DIFFERENT?

Opens June 4

Examine the biology, history and live experience of race in the United States. Discover the cultural and scientific look at race throughout history and the reasons we should celebrate our differences. See details on page 3.

PLANETARIUM AND 4D SHOWS • Every Day

Visit scmuseum.org for show schedule.

BOEING OBSERVATORY

SOLAR VIEWING • Every Day • Weather permitting.

NIGHT SKY VIEWING • Every Tuesday til 10 p.m.

Weather permitting. Free with museum admission or membership.

SECOND SHIFT TWOSDAYS • TWO FOR \$10

The Museum is open is open til 10 p.m.

The museum opens late for a second shift so guests can tour the galleries, enjoy night sky viewing in the observatory and see a planetarium show or a 4D movie and shop the Cotton Mill Exchange. Visit scmuseum.org for the Second Shift Twosdays event schedule.

MUSEUM HIGHLIGHTS TOURS

Every Saturday • 11 a.m. and 1 p.m.

Free with museum membership or general admission.

Night@THE STATE MUSEUM

May 27 • 5:30 pm - 10:30 am

ATTENTION MEMBERS! You and your family have the first chance to register to experience a night at your State Museum. **REGISTER TODAY!** Space is limited and registration will open to the public April 30.

You and your family will have the unique opportunity to learn from real Astronomers as they explore the vast reaches of space. The Boeing Observatory will be open late for campers so they can work with museum astronomers while looking through the historic 1926 Alvan Clark telescope at amazing night-sky objects. Campers will also explore constellations, planets, the Moon and more in a special live, seasonal planetarium Sky Tour.

NIGHT@THE STATE MUSEUM INCLUDES:

- Little Caesars Pizza
- Continental breakfast with coffee
- Morning 4D Theater showing of *RIO: 4D Experience*
- Shopping in the Cotton Mill Exchange
- Sleeping arrangements
- Education staff and security

COST: \$35 per person

Docent, Jerry Coughenour, volunteers in our new exhibit *ART: Collection of Collections*, where he teaches guests about South Carolina art and the State Museum art collection.

DO YOU HAVE A LOVE OF SOUTH CAROLINA?

Then the South Carolina State Museum has a terrific opportunity for you! Volunteer teachers, known as docents, are needed to conduct tours of the State Museum for school groups and the general public. Docents must be 18 years-old or older and available to conduct tours at least one weekday morning a month. Volunteers are also needed in other areas of the museum. Contact our Volunteer Manager and donate your time and expertise to the South Carolina State Museum today!

Give back to your
community this
year by becoming a
volunteer docent!

VOLUNTEERS ENJOY:

- Flexible schedules
- FREE museum general admission
- Free training opportunities
- 20% OFF at the Cotton Mill Exchange and Crescent Cafe

MIDLANDS GIVES

Powered by CENTRAL CAROLINA
Community Foundation

IN PARTNERSHIP WITH **GIVE LOCAL AMERICA!**

IT'S THAT TIME OF YEAR AGAIN!

Once again the South Carolina State Museum
Foundation will participate in Midlands Gives!

Last year many of our members, donors and friends jumped on board and helped raise \$8,000 to support the State Museum.

Once again we are asking each of you to join us in our efforts to help us reach a goal of \$15,000.

Midlands Gives is an online giving event that provides nonprofits the opportunity to gain exposure to - and start relationships with - new donors, and for people in the Midlands of South Carolina to come together and raise as much money as possible for local nonprofits.

In just two years, Midlands Gives has generated \$2.25 million in gifts for the Midlands community. In 2015, more than 11,000 gifts totaling \$1.5 million were given to benefit more than 250 local nonprofits.

Midlands Gives brings the region together as one community, raising money and awareness for Midlands non-profits during a 24-hour giving challenge.

ON MAY 3, 2016,

everyone can be a philanthropist
and help the

SOUTH CAROLINA STATE MUSEUM

reach its goal by visiting

MIDLANDSGIVES.ORG and DONATING!

THANK YOU FOR YOUR SUPPORT!
